SERVER SIDE DATA BASE DRIVEN

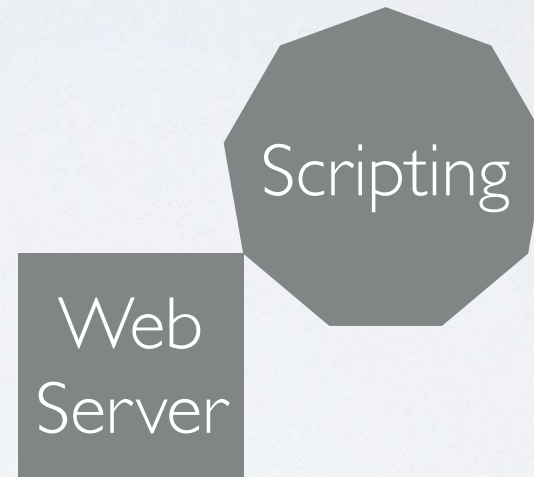

Web
Server

The diagram illustrates a server-side database-driven architecture. A dark gray square labeled 'Web Server' is positioned in the center. To its left, a dark blue line representing the 'Internet' cloud is shown. The line starts at a medium height, dips slightly, then rises to a peak before dipping again and ending at a lower point. The word 'Internet' is written in a dark blue, sans-serif font below the line on the left side.
